ANPASSUNG DER UNTERNEHMUNGS ORGANISATION AN DIE ELEKTRONISCHE DATENVERARBEITUNG

(Enterprise adaptation in view of introducing electronic data processing)

BETRIEBSWIRTSCHAFT MAGAZIN, 4, 1971

The authors put forward the problems to be solved by the managing staff of an enterprise when an electronic data processing is implemented.

Out of these problems we shall cite:

— Statement of the employment degree of the electronic data processing compartment;

— Estimation of the changes required by the implementation of automatic data processing in the existing compartments;

— Determination of the manner in which the managing staff shall use certain requirements;

— Adoption of a policy adequate to the new opportunities that are offered to the enterprise managing staff through the electronic data processing.
