METHODOLOGY OF PREPLANNING

M. R. Mantz, Honeywell Bull (Nederland B. V.) Vilegtuigstraat 26 Hoofdkantoor, Amsterdam (W), (The Netherlands)

The following topics will be considered:

1. A PREMODEL TO EVALUATE an existing enterprise structure.
2. A PREMODEL TO FORMULATE the fundamental motives for innovation.
3. A start from the richest generalised PRE-SOLUTION, which in a step-by-step decision procedure is converted to a concrete solution.
4. The FORM and SEQUENCE for optimum benefit, from the already available KNOW-HOW of many scientific disciplines.
5. A DEVELOPMENT MODEL towards still more efficient systems.
