THE SCIENTIFIC ACTIVITY OF THE CYBERNETICS COMMISSION OF THE ACADEMY OF THE SOCIALIST REPUBLIC OF ROMANIA

The Cybernetics Commission of the Romanian Academy is concerned with the promotion and spreading of the theoretical and practical knowledge of the science of cybernetics. The Commission organizes scientific events in the field of cybernetics: national conferences, sessions, colloquiums, a.s.o. The Commission prepares the participation in the international congresses of cybernetics. The Commission also reports on the national and international cybernetic scientific events, on cybernetic education and the internal and foreign literature.

The Cybernetics Commission of the Romanian Academy is carrying on its activity in the following directions:

1. Cybernetic Systems Theory
2. Management and Informatics
3. Living Systems Cybernetics
4. Technical Systems Cybernetics
5. Socio-economic Systems Cybernetics.

The Commission is led by a chairman: Academician, prof. Manea Mărnescu and by a vice-chairman: eng. Mihail Florescu, corresponding member of the Romanian Academy. The Commission has 38 members and it is organized on sections. The heads of sections are: prof. dr. Mircea Petrescu (Cybernetic Systems Theory); prof. dr. Mihail Drăgănescu, corresponding member of the Romanian Academy (Management and Informatics); prof. dr. Edmond Nicolau (Living Systems Cybernetics); eng. Mihail Florescu, corresponding member of the Romanian Academy (Technical Systems Cybernetics); prof. dr. Eugeniu Niculescu-Mizil (Socio-Economic Systems Cybernetics). The secretary of the Commission is dr. eng. C. Bilciu.

The activity of the Cybernetics Commission includes lectures and debates on the theoretical and practical problems of cybernetics.
